

WHAT IS 'EVENTS BY AMBER'

The way to conference in 2020

Events by Amber was designed to distinguish ourselves from the common conference venue. Our vision is to create events with restaurant quality food, while responding to the current demands of the meetings industry.

Amber restaurant, located on the lobby level of Rydges World Square was opened in March 2020 and was created around providing quality produce from local suppliers that use sustainable produce and support local community. Our Head Chef, David Yang and our Amber Head Chef, Parveen Prasad are both industry leaders in culinary philosophy. In collaboration, they have created the Events by Amber menu that features braised Wagyu Short Rib with Truffle Pommies puree, Angus Strip Loin steak and Crispy Skin Salmon.

Current circumstances have provided us with a unique opportunity to challenge the way we would usually facilitate conference and events. Let us show how restaurant quality food can be supplied in the current requirements of physical and social distancing.
